# Museum Day packed with fun

Day is the thing!

Man, if you want fun, then al Museum Day hits a quick Armory. Hondo is the place. Saturday, tempo at 10 a.m. Saturday May 1 is the day, and Museum when the Hondo High School Owl Band presents an opening Action in the second annu- concert at the National Guard

While at the depot everyone is urged to view the three rooms of displays created by Nora Winkler and Gladys Lindeburg.

Meanwhile, over at the Armory things will continue in fast sequence. There will be the Country Store, stocked and operated by the Hondo Home Demonstration Club, and its selections of canned fruit, jellies, jams, handcrafts, homemade breads, cakes, and many other items.

And who can deny the fact that fun will run rampant in the Purple Petticoate Saloon operated by the D'Hanis Lions Club. Somewhere around 4 p. m. amidst the frolicsome banter and counterbanter will be the auctioning of the Fat Pigs. Four pigs last year brought \$245 and planners are hoping for this total to be exceeded

Why is it that everyone loves to see pretty girls and well known persons dunked in the water hole? They do and the baseball dunks, operated by the Hondo Future Farmers of America Chapters, will again be a focul point of fun.

Sweet teeth will certainly be filled by homemade ice cream served by the Future Homemakers of America chapter at Hondo High School and also at the Sidewalk Cafe where pies and tea will be served by members of the Iota Upsilon Chapter of Epsilon Sigma Alpha. And in the Country Store South Hondo 4-H members will have home made candy and popcorn balls.

Favorite food for voung sters is bound to be hot dogs, or that is what the Hondo Li-

Entertainment will be provided by a group of local musicians and the Country Squares will present a square dance between 1:30 and 2:30 p.m. Other entertainment is tentatively scheduled for the afternoon.

Art lovers will have the opportunity to view and buy art by local and area artists at the Artist Show and Sale supervised by Gladys Lindeburg.

For the young kiddos, the Hondo Women's Golf Association has that popular fishpond ready and there's no telling what will be caught this year. And outside Ernest Bendele will again run the pony ride for the children.

Another fun place for young and old will be the fortune teller--or Madam Reggie. Madam Reggie proved a hit last year and has been brought back by big demand.

And don't forget the games booth operated by Sigma Tau Chapter of Epsilon Sigma Al-

Special tables will be set up where everyone can purchase memberships, and the special Museum Plate, a 9inch plate with a colored sketch of the Museum, for \$4.00 or \$4.50 with hanger. Also at this table will be a package of seven note sheets with envelopes. The note sheets will picture sketches of seven historical landmarks in the county for \$1.00 per package. Mrs. Fred Bader and her son Jon did the sketches and were aided by Mrs. Nell

Also for sale will be special Hondo Postcard decoupages and locker caddies done by Mrs. Bob Nations, tiny intricate items like pin cushions vases etc., made from tin by Mrs. Iris Bader, and drift wood floral arrangements by Mrs. Ken Beard.

"There will be so much going on Saturday, it is difficult to describe all of it," Chairman Burnis Lawrence said. "But we guarantee everyone there will be something for them if they will come out and support Museum Day. We appreciate the tremendous amount of work done by everyone and you will too if you come by Saturday."

AN ITEM FROM LONG AGO

It takes a good memory that covers a long span of years to remember the old one cent post card the Post Office once sold. But Sis McDade brought me one sometime back that might bring memories to the minds of a few county residents.

The card is dated Hondo, May 1, 1900 and reads: "The Third Medina County Teachers' Institute is called to meet Upper Quihi on Friday, May 25th, 1900, for two days, with the unfinished program of last Institutes and such new matter as any teacher may bring before it. To Profs Hall and Harris I specially assign Grammar, and especially Infinitives. A full attendance is expected. Respectfully, H. E. Haass, County Superintendent, Medina County, Texas."

The post card will be on display this Saturday at Museum Day.

NO OWNERSHIP

A couple of weeks ago in urging that the City Council extend the city limits to the junction of Highway 90 and FM 173, I used the new mobile home development of John Poerner's to make the point on the need of such a move.

In that connection I included the Hondo National Bank. Since then I have been told on all corners that the bank does not own any of the development or the mobile home sales which fronts the development. Those who have made it a point to tell me this say it is illegal for the bank to own a business.

# We're tops in community service

Anvil Herald publisher Burnis Lawrence proudly holds the plaque denoting the newspaper's first place award in community service. The award was presented in Corpus Christi last weekend during the South Texas Press Association's contest awards ceremonies. In giving the top award to the Anvil Herald, judges singled out the newspaper's well planned and executed campaign to get the old SP depot moved for use as a county museum. As publisher of the paper, Lawrence planned the campaign, wiring news stories, taking photos, and plugging the endeavor in his column. The plaque is presented by the South Texas Chamber of Commerce. It joins another STPA community service plaque won in 1960-61 as well as one from the National Newspaper Assn., plus several won in other categories. Mr. Lawrence and the award will be featured on Channel 5 Sunday in a South Texas Chamber feature.

## Depot clean-up crew

Cleanup was the order of the day Saturday when several persons gathered at the old SP depot. They were trying to get the building in shape for Museum Day Saturday. Daylight Savings Time doesn't floor anyone of course, but a lot of people don't like the taste of it, but if blowing a fuse about it doesn't do any good, it doesn't do any harm either. So let's all buckle our seat belts in preparation for the explosion. Here goes:

Once again Daylight Savings Time made the scene ... It could have postponed it trip 10 years for my part ... we haven't been too enthusiastic . . . not even from the start. But now that it's here ... we'll get "with it" -- even sing ... And as is said in Hippie slang ... "Well that's my thing!" Because we're still free, by rising 1 hour earlier in the morning . . . We can still retire 4 hours later at night ... As long as we're on time next morning ... The Boss would say you're so right. So we'll all be "with it" and forget about next October ... And now think of a pretty spring flower ... Until they start preaching again ... Turn your clock back 1 hour!...

The Texas Legislative Committee is going to pursue several other avenues in order to give relief to the drought-stricken area. We plan to continue to pursue the availability of funds for fencing farms against the invasion of deer and we hope to have hay shipped into the State without freight cost. I am sure farmers, ranchers and businessmen of Texas do not want the Federal government to use the disaster as a political issue.

APPROPRIATIONS -- The House passed Senate Bill 11 authorizing the expenditure of 6.9 billion dollars for the biennium of 1971-73. This does not include welfare for the second biennium as it is our hope the Federal government will decide on their role in this field by the end of the first year of the biennium. Funds allocated in the bill to the 49th District include \$100,000 for planning of a Research Center in Uvalde (one of three in Texas) plus a substantial amount for the following: "A live stock specialist, a range and brush control specialist, wildlife management specialist, and an agronomist together with necessary staff to be located Extension Center."

An increase for Southwest Texas Junior College from \$575 per student per semester to \$625 per student for the first year of the biennium and \$640 for the second year of the biennium. Also, the Southwest Texas Junior College to be used for vocational technical work, the amount of \$608,125 for the first year and \$622,720 for the second year. Hopefully, we can get this amount increased in the Conference Committee.

Several members of the probable Conference Commit tee on Appropriations have given encouragement to include an appropriation of \$105,000 for the first year and \$110,000 for the second year to be used by the Uvalde Research and Extension Center to fund wildlife scientists. Wildlife and sports continue to play a most important part of our economy and further research is needed to improve the habitat and variety of species. ALLOW A LITTLE BRAGGING

Elsewhere on the front page this week. you will see a picture of the plaque won by the Anvil Herald at the South Texas Press Convention in Corpus Christi last weekend. This is not only a beautiful plaque, but it also is a highly coveted one.

Presented by the South Texas Chamber of Commerce, the Community Service a ward fulfills the ultimate goal of a newspaper -good service in helping build the community which it serves.

The Medina County Museum project was a natural for such an award, and we at the Anvil Herald are extremely proud of the fact we could provide this service to the Commu-

And the timing of this award could not be more perfect with another Museum Day coming up Saturday, May 1.

#### SPEAKING OF MUSEUM DAY

Those of us who are closely connected with Museum Day have high hopes we will have another very successful day come Saturday. There is much work to complete before Saturday arrives, but it will be done so you come on out and have fun and help support this project that will prove beneficial to the county for years to come.

All you mustache and beard growers ! look elsewhere in this paper for information on the judging of your growths. And I would like to take this space to personally thank each and every one of you who had the courage to brave your wives' wrath, the cracks of your friends and the discomfort. It is a cooperative spirit such as this that helps put a community project over the top.

A FINAL WORD ABOUT ANTIQUES -we need them! Those of you who might have forgotten to check around your place for any old item we can sell, please do so

We know how difficult it is to part with an antique, especially if it has sentimental value. But there is one thing for sure. Given to the Museum for sale at the auction will provide much satisfaction, and help to build a worthwhile project at the same time.

How about it? Won't you select something to give the Auction and call Fritz Leinweber at 426-3378 right now! You can rest assured it will be appreciated.

Oh, yes at 3 p.m. Saturday we are going to have a photographer standing by to take a group picture of all must ache or beard growers who are present. Drop by and get shot for posterity!

Will just tag this information in since John Wentz gave it to me after I wrote the above notes. There will be a contest and winners will like the hand-painted mustache cups being readied for them.

Final names of those who have joined in the spirit includes: Tab Cortinas, Domingo Leyva, Jess Arcos Sr., Jesse Arcos Jr. of Brackettville, Bert Garcia of San Antonio and Alvin Wiemers--who has a good looking beard.

I will be kind to those few who have dropped by the wayside and not name them.

#### IMPORTANT ARTICLES

I would urge all parents, non-parents, young people and old people to read the series of drug abuse articles being published each week in the Anvil Herald by Hondo Police Chief Jerry Williamson.

This article is being co-sponsored by Hondo Rexall Drug, Dan's Drug, The Chicken Coop, Nester's Supermarket and the Anvil Herald. We are proud to have a part in its publication and thank the others for being civic minded enough to help bring this important subject to the Anvil Heraldre ad-

So when you read the articles, which will run for a total of 13 weeks, be sure and let Jerry know how you enjoy them. He would like to hear from you.

See you Saturday at Museum Day !!

#### Please

Send us your news. We are happy to receive stories on every engagement announcement, bridal shower and wedding. We must, however, request that our readers observe some guidelines in order to comply with time and space requirements. Please bring or send your engagement announcement at least one month before the wedding date. All stories on pre-nuptial parties and showers should be in the Hondo Anvil Herald office before 5 p.m. on the Tuesday before the wedding. We prefer to have bridal shower stories the week of each party rather than have several parties included in one story. We have wedding story forms to be filled in and will be happy to furnish them to all prospective brides or their mothers. We shall try to use as much information as the forms call for along with bridal pictures IF we receive the information within two weeks after the wedding. As of this date we do not charge for publishing either the news or the pictures - we are happy to have them - BUT ON TIME, PLEASE!

# Producers warned regarding additives in swine rations

tives is under real pressure and the final outcome rests largely with swine producers. All feeds containing antibiotics or additives must be labeled, showing the number of days the material or materials must be withdrawn before the hogs are sold for slaughter.

Producers, says the county agent, should carefully read the warnings on the tag attached to each bag of feed or on the invoices that accompany each load of bulk feed. Then, make sure all feeding recommendations are closely followed.

The withdrawal is made necessary since some antibiotics and growth stimulants are deposited in the animal's body tissue. The withdrawal periods allow ample time for the excretion of these materials to the point that body tissue or meat will not contain levels above those accepted by the U.S. Food and Drug Administration, explains Bragg.

The county agent also notes that the FDA has increased its surveillance of drug residue in meat and that producers should make doubly sure the pork they produce has been fed in accordance with tagged recommendations.

# Parents Know the Drug Threat

The child you save may be your own

Ву Jerry Williamson Hondo Chief of Police

Today's Subject: Marijuana-The "Innocent" Drug

Marijuana is probably the best known drug to most parents because for years we have been hearing about it. Marijuana has long been in use in what we now term minority groups, but now it has spread across the land like cancer. Its manufacture and distribution is, of course, prohibited by law except for approved research purposes

Marijuana is the dried flowering or fruiting top of the plant Cannabis Sativa, L., commonly called Indian Hemp. Usually it looks like fine, green tobacco. It is smoked in pipes or cigarette form. Hashish, also a preparation from Cannabis, is taken orally in many forms, and infrequently it is made into candy, sniffed in powder form, mixed with honey for drinking or with butter to spread on bread. The primary effect is a feeling of great perceptiveness and pleasure and an exaggerated sense of ability, resulting from even small doses. Erratic behavior, loss of memory, distortion of time and spatial perceptions, and hilarity without apparent cause occur. There is a marked unpredictability of effect.

Of course, these reactions are usual in the user of alcohol, too, but with the drug user there is no alcoholic breath odor. Breath odor though is most always unpleasant.

Because of the visions and exhilaration which result from the use of Marijuana, abusers may lose all restraint and act in a manner dangerous to themselves and others. User is usually accident prone because of his time and space sense upheaval. Dependence leads to anti-social behavior and could be the forerunner to use of other, far more deadly drugs.

Street terms (names) for Marijuana are: joints, sticks, reefers, weed, grass, pot, muggles, mooters, Indian hay, locoweed, Mu, giggle-smoke, Griffo, Mohasky and Mary Jane

By the millions, and rightfully so, parents are more and more concerned or even panicked about drug use. Most disturbing is that drugs, especially Marijuana, are becoming popular even among junior high and high school students. One 37-yearold father said in a recent interview, "My seven-year-old daughter can spell Marijuana. I never heard of it until I was in col-

On and near by high school and college grounds, raids and arrests for possession of Marijuana and other drugs are increasing across the country. Simple possession of Marijuana is a felony - rightly or wrongly - that can be punished by jail terms of 2 to 10 years or more. Drug use is, without doubt, becoming a way of life for some young people - and, for an untold but large, if not larger number of adults also. And so, think about these things, my friends - we are all in this together. As adults, it is up to US to head this thing off in our community. To do this we must all know more about drugs, their use and misuse. Will you be with me next week? I hope so. What we are studying is for a very worthwhile cause!

At a special session of Police Court, formerly called Commissioners Court, on May 10, 1870, it was recorded that Fred Metzger was Justice of the Peace for District No. 3 and John Redus for District No. 5. On July 6, both Redus and Metzger were listed as associate judges of the court. Redus served through 1872 and Metzger through 1874. Although Metzger's name did not appear as a member of the lodge until 1872, he took an active part in the lodge in the years following that. It is thought that he received his degrees before becoming a resident of Medina county, and Grand Lodge records indicate that he was a member of Alamo Lodge No. 44, San Antonio, before he affiliated with Hondo Lodge No. 252 on January

Frederick Metzger had an experience and background of many adventures before locating in New Fountain in 1867, according to the "Twentieth Century History of Southwest Texas," He was born in Germany on March 5, 1833, received his early education there, and landed in Gaiveston with his parents, Mr. and Mrs. Peter Metzger, in February, 1846. He enlisted as a drummer boy in 1847 after the outbreak of the Mexican war, and served under Gen. Winfield Scott's commanduntil July 25, 1848. Returning to Galveston he worked as second steward on a steamboat for a short time before starting for California in the Gold Rush of 1849. However, he was stricken ill in Leavenworth, Kan., gave up his

mustered out in San Antonio. Returning to Camp Verde, he was employed by the Federal government as a camel master at the time the military was conducting an experiment with camels to solve the transportation problem in the semi-arid areas of the Southwest, Returning to his ranch, he farmed for one year, and in 1867 located in New Fountain where he engaged in huckstering and peddling with a pair of mules and a wagon. He was successful, and opened a merchandising business which later was destroyed by fire. He then built a steam grist mill and operated it for several years. It was during this time that he first became active in the Hondo Valley lodge and in county governmental affairs.

Traveling Salesman Metzger gave up his milling operation in 1881 and became a traveling salesman for Osburn and Company of New York, dealers in agricultural implements, with a branch in Dallas. During the next ten years he continued traveling. was successful, and established a store of his own in New Fountain, which was conducted by his family. He assumed management of the store in 1891 when he gave up his traveling, and the same year moved to Hondo, where he built a home and established a hotel known as Hotel Metzger. He operated the hotel and bar in connection with it until 1895 when he retired to oversee the management of his ranching and property in terests. In 1900, Metzger patented an acetylene light, which he manufactured and

sold for many years.

This sketch also said Mr. and Mrs. Metzger had the following children: Fred A., who is a business man in Mexico; Charles, chief clerk in a store in Hondo; Louis, who has learned and followed the tinner's trade; Anna, the wife of Pat Lynch; William, a machinist in Beaumont; and Paul, chief clerk of a mercantile house in Pleasanton.

In 1871, John Redus again served as W. M.; John Kennedy, S. W.; A. B. Dillard, J. W.; H. T. Renken, Treasurer; J. W. Rowland, Secretary; J. N. Elam, S.D.; Ambrose Crane, J. D.; G. S. Johnson, Sr., S.S.; James B. McLemore, J.S.; Henry Boyens, Tiler. New members listed were A. J. Smith and John Weymiller, and total membership reached 40.

Some future PAVLOVA from Medina County might be in the practicing stages right now, judging from the lovely young danseuses who performed for an appreciative audience of several hundred last Friday evening.

From the tiniest to the tallest, the dance students of JENNIFER PATTON put hearts (and soles) into an amazing variety of routines that brought rounds of applause from beaming grandparents, apprehensive mamas, proud picture-taking papas, aunts, uncles, friends and many wistful contemporaries who might have been wishing for a chance to have a go at lessons themselves some day.

Credit goes to LILLIAN (Mrs. Bruno) SCHWEERS as sponsor and to all the cooperating adults who included the Auxiliary officers, the chairmen and committees responsible for the decorations and the endless details that insured the show's success. As M.C., becomingly-bearded GEORGE GOODING also put in a plug for MUSEUM DAY which awaits

As for the dazzling array of costumes which the twinkle-toes wore, many a mother must have been kept in stitches for many a dedicated hour!

An "encore" of cooperative community interest which followed the dance recital was the annual CAMP FIRE GIRLS' carnival and barbecue supper at City Park where everyone shared the fun and the excellent food.

In the crowd, I answered a waved greeting from a sparkling-eyed blonde who told me her name, MICHELLE, and said she was "over two years old" --2 to be exact.

Michelle was in the arms of her daddy, S/Sgt JOHN J. HOLDEN, now on duty at Lackland AFB. With him were his wife, EVOLIE, and their older daughter, PAULA, who is seven. They live in Castroville.

The sergeant told me he has been in military service ten years and that he is about to become a "converted Texan". However, his home is in Philadelphia. Amazing how I just "happen to meet" the nicest folks from that area which is one of my own favorite spots in our country!

At the postoffice, I met LINDA (Mrs. Arnold) GUAJARDO, whose husband is one of our city policemen. With her was their 3-year old son, ED-DY, and his aunt, HILDA TORRES, a junior at

The girls were laughing at something Eddy had said as he clutched a paper bag in his chubby hands. His mother explained that he liked to visit his grandmother to have "merienda" each day.

The bag contained some pan dulce, fresh from the HONDO BAKERY and Eddy had observed "Well, this time we won't have to go to Grandma's, will we?"

Other "postoffice" acquaintances last week included JO ANN (Mrs. M. G.) STIEGLER and three of their four children, BARBARA (6), MARY (4) and MELVIN (2). Their daddy is employed at place, \$15; Samuel W. Hardy, MEDINA Co-op.

> CYNTHIA (7) is a second-grader at St. John's where her little brother says he'll be "going to some day myself".

> The JOHN (Mary) SEIFERTS have lived in Hondo since their eldest was four weeks old, Mary told me, although I had not had the pleasure of meeting her until a few days ago.

> Imagine having four children in college and still keeping the radiant young-mother look! JOHN, at Tarleton, Stephenville, will soon begin work on his Masters in agricultural education. SUE, at Texas Tech, Lubbock, has designs on becoming an interior design artist.

> PATRICK, on a partial scholarship at Texas A&M, is majoring in animal science.

> ANNE, at SWISU, San Marcos, is a home ec major and has been named one of the dorm counselors for next year.

> Meanwhile, back at HHS, BECKY is the junior class favorite and where she goes from there is bound to be to college, of course!

> At least I can share in the "bragging" (my own idea) about this Hondo family whose pride in their children we can all share.

When I saw LLOYD HERMES armed with paint bucket and brushes recently, I thought he might have given up tending to our city streets and turned to Art.

No such thing. He was just about to paint his house and, if you've noticed how spruced up it looks, you'll admit he did a good job.

Palmer adds. The Texas Legislature, explains the county agents, has provided a program of estimates for each county. Because Texas covers such a wide area, State totals alone do not provide adequate information on our most basic industry; hence, the need for county information. The program is a cooperative effort of the U.S. Department of Agriculture's Statistical Reporting Service and the Texas De-

partment of Agriculture. Bragg urges all farmers in the county who receive the estionnaire to fill it out acreturn it as soon as possible to the Reporting Service.

#### H.E.B. honors Alvin Lange

Alvin J. Lange, assistant recognition and a service amanager of Hondo H.E.B. was among 365 employees of H.E.B. Food stores honored recently at the company's 65th anniversary service awards program.

The ceremony and entertainment program was attended by more than 2,000 employees from 11 western area

and 25 San Antonio stores. Lange received special

ward pin for five years of service with the company.

He and his wife, Valeska, who is employed by Hondo National Bank, moved to Hondo with their five children 15 months ago. Lange had been employed by HEB in Kerrvillo for three and one-half years prior to coming here.

Their children are Ronald, Nancy, Jacquelyn, Mary and Pamela.
